

Program Mission

The mission of the Teen Transitional Living Program is to provide a safe, supportive environment to our youth that recognizes strengths and honors individual choices and values; while empowering youth as they move toward independence and self-sufficiency in partnership with their family and community supports.

What will the program do for you?

The Teen Transitional Living Program will assist residents in acquiring skills necessary for productive and independent lives. The staff will do this by assisting you in accomplishing your goals, promoting healthy and successful integration in the community, helping you become resourceful, and by referring you to other services when needed.
